

# MaxiPAC.be

Lessons learned after 6 months of project implementation

# Socio-economic Monitoring labour market and origin 2022

*Unia and WASO 2022*

GRAFIEK 14: Werkzaamheidsgraad naar origine en opleidingsniveau (20-64 jaar, 2018)

*“In Belgium the employment rate of non-EU-nationals is the lowest of the entire EU, the gap vis-à-vis Belgian nationals the biggest”*

\* inclusief onbepaald

Bron: Datawarehouse arbeidsmarkt en sociale bescherming, KSZ. Berekeningen en verwerking: FOD WASO.

## “Bare Facts”

- 50 candidates
- 32 interviews
- 36 drop-outs
- 10 postponed
- 15 trajectories (6 pending)

... and counting (3 +33 + ...)

## **MaxiPAC**

- Step 1: 32 intakes, 25 EQS
  - Step 2: 2 multiple shortcases
  - Step 3: 1
  - (Step 4)
- (+ pilot phase: 1 student)

# Beyond the “bare facts”

Intake

Reality check

## Wrap-up

- Relevance: “Perishing potential”
- PAC is an important, relevant yet underused opportunity
  - “Max” =>
    - Targeting (Language !!)
    - Rising awareness of the existence (entire chain/ all actors involved)
    - Building and sharing knowledge on how to make PAC successful for third country nationals
      - Elaboration of steps 1, 2 and 4
    - Coaching
- Complex, hence slow => adapted strategies
- Looking forward to your input
